

2022 YEAR IMPRESSION

PP&CC

Professional Performance & Compassionate Care

Doctor Iris Jansen successfully defended her PhD thesis:

*Interactions that Matter:
Understanding Residents'
Professional Growth through
Workplace Relationships*

TEACHINGS BY PROF. STEINERT

Faculty development

- strategies & implementation
- trends & opportunities

Prof identity formation

Agile leadership

Med Ed research

We were extremely honoured to host Canadian **Professor Yvonne Steinert**, (Montreal) as AMC's Spinoza guest professor.

"Medicine is Not Gender-Neutral: She is Male"

Kiki Lombarts & Abraham Verghese

A NEJM (March 31) publication on male-gendered medicine and how it affects female physicians and patient care.

During the **Symposium WaanZinnige Zorg** (*InSane Healthcare*) at the Tobacco Theater in A'dam, we discussed, shared and reflected on our changing world and its meaning for healthcare, medical education, professionalism, vitality and compassion. Enjoy this video impression and see our website for [the full review](#).

This year, **two** new tools were added to web-based portfolio **Perito Professional Performance**:

The **WellNext Scan** maps physician teams' well-being and (the influencing factors in) their work context. The resulting report facilitates the team conversation on vitality.

The **WhatsUp** tool offers teams maximum freedom in surveying its members on any relevant self-chosen topic by self-defined questions. The resulting report immediately delivers the much needed insights.

5 FACTS ABOUT PP&CC IN 2022

Did you know that this year...

...our publications up till date achieved a total of **2650 citations**? ✨

Our 2022 research focus included the topics of **gendered medicine**, **physician well-being**, **learning & teaching climate**, **(self-)compassion** and **performance assessment**.

01

02

...we happily contributed to Amsterdam UMC goals by i.e. providing **IFMS coaching** conversations; **teaching** residents & students on performance & well-being; facilitating the launch of the **women's network** WANA; participating in various hospital **committees** (i.e. sustainability, COC, and Spinoza)?

...**24 hospitals** made use of our Perito Professional Performance Platform, resulting in **9303 total evaluations** completed in 2022, of which **4481 SETQ evaluations**?

03

04

...we shared our research through **publications**, **interviews**, **podcasts**, webinars, at (inter)national medical education conferences i.e. AMEE, NVMO, MMV and other events i.e. NVVC and Santeon conferences?

...we care about **self-care**?
That is why we **respect** each others' bio-rhythm's, **celebrate** successes *and* **support** each other during setbacks, and most importantly: **laugh a lot** together.
